PREMIUM STONE TEXTURE

ALLURA

Welcome to a world of premium-range stone textures by Asian Paints, drawn from inspirations across the world. Each of the family in the range is designed to be durable for exterior applications but also aesthetically pleasing to elevate the interiors. With the addition of the Clara topcoat, they offer 10-year warranty, superior anti-algal resistance, tough weather resistant and the high Dust Pick-Up Resistance (DPUR).

Concordia is crafted when some of the hardest and strongest materials come together from crushed stone, sand aggregates, gravel and inert pigments reinforced with acrylic modified emulsion - to give you a complex surface for feel and sight.

Meraki is inspired by cladding materials – adding finishing touches. They are crafted with a thoughtful blend of selected sands and unfired clays, mixed with pigments and minerals into a high-quality natural plaster that encourages breathability in the design.

Reserva retains elements that are authentic to its natural environment. Mined and crafted for this very purpose, they have a distinct visual appearance of their own.
